San Marco Crossing A & B include two distinct four-story multifamily projects that total 496 units. Bringing new life to an 8.09 acre brownfield site along the Phillips Highway Corridor, the residences will provide increased activity, walkability and connectivity to this redeveloping area.

San Marco Crossing A includes 290 units wrapping a 4.5 level precast parking deck. The exterior design is inspired by the nearby railway, the clean contemporary exterior embodies subtle industrial tones using textural finishes and warehouse inspired fenestration. Residents enjoy 7,000 SF of indoor amenity space and 24 hour fitness. Exterior amenities include expansive courtyards with resort-style pools, outdoor recreation areas and park like gathering spaces.
